

Credit where it's due.

Keyhouse Solicitors Accounts is a comprehensive financial management system that helps you to control costs and manage client money while monitoring and analysing the financial status of your practice.

It was designed specifically for solicitors and, while straightforward and easy to understand, it complies fully with the Solicitors Accounts Rules.

If you already have another accounts system that's not giving you what you need, you can upgrade to Keyhouse Solicitor Accounts and bring over all your historical data to ensure you have continued access to all your information.

Key Features and Benefits

- Comprehensive matter ledger with access to extensive client and matter information for greater control and accuracy
- Easy-to-use single posting screens with a similar look and feel
- Complete double entry system with in built self-checking mechanism for greater accuracy
- In-built warnings and exception reports make compliance with Solicitors Accounts Rules easier
- Complete integrated system with full matter, nominal, debtors and creditors ledgers
- Purchase invoices can be linked directly to client and matter to record outlays earlier
- Quick postings helps make a variety of postings with less data entry
- Save time with automated costs transfer, cheque requisitions and bill drafting which need less data entry
- Handles VAT on cash receipt or invoice basis
- Records undertakings to ensure your obligations are met and discharged when required
- Powerful management reports (over 100 standard ones to choose from) for more detail
