

The Keyhouse Mobile Application **connects you to your office, wherever you are.**

Designed for smartphones, iPads and tablets, this lightweight application keeps you connected to your Keyhouse practice management system, letting you manage and work on your cases while you're out of the office.

The Keyhouse Mobile App is transforming the way solicitors earn fees, helping firms all over the country to work while on the move. This is a smart, easy-to-use tool that helps legal professionals to be productive even when they're out of the office, keeping them in touch, working, earning and ahead of the competition as they get more out their working day.

Allowing you to access all your Keyhouse information and documents, either through your phone or tablet. It is not designed to replace the full Keyhouse desktop application, however, it will facilitate accessing files and account ledgers, assigning emails, reviewing documents and recording time.
